Re: Stephanie Slen

This is a reference letter on behalf of Stephanie Slen, Britannia Community Services Centre Society (BCSCS) operates a municipal community centre for the residents of East Vancouver. We are a non-profit organization located in Vancouver on a 17 acre site with 2 schools, a public library, an ice arena, Indigenous Carving Pavilion, teen centre, seniors centre, day cares and swimming pool. Our vision is to be a catalyst for social connection, capacity building and integration of services in our community while celebrating diversity, and enhancing the life and well-being of everyone who lives, works, and plays in our community. Our approach is grounded in social interaction, social development, recreation, sport, fitness, arts, culture, education, learning, nutrition and community connections. We seek to create programs that encourage meaningful participation in our communities that may lead to social change. We strive to address social and historical inequities by advocating and acting in collaboration with vulnerable community members and committing to Reconciliation.

As a resident of the neighbourhood and student at Britannia Secondary Stephanie was very involved in the community. In 2023-2024 Stephanie worked directly with the Society as a leader in diverse aspects of building community and supporting youth voices as a member of the Britannia Board of Management. She has demonstrated great leadership and maturity by engaging on a broad range of issues from youth programming to organizational budgets and operations. She has a professional thoughtful demeanor that is deeply felt by those around her when speaking on important topics relevant to youth and her community.

We are honoured to be a witness for Stephanie Slen, she is a young leader and will be of service to our community for many years to come.

Sincerely,

Cynthia Low
Executive Director
